

Year 6 Optional Extension Tasks – Autumn

As promised, please find below a list of optional extension tasks which your child may like to complete during this term. As you know, we have our essential weekly homework tasks (outlined in your Welcome Booklet) and the family-friendly 'Weekend Wonders' passport card. For those parents or pupils who thrive on more in-depth study, try out some of the ideas below. Your class teacher would love to see the final result, however, formal feedback will not take place as these are optional extensions.

During this term we are learning about World War Two (WW2) in our study of 'To Final Victory'. One of the key events of WW2 was the Normandy Landings. What can you find out about this key event? Create something interesting of your choice (e.g. poster, PowerPoint, art piece etc.) to share with the rest of your class.	In science, we are learning about 'Light'. Investigate what 'light refraction' is and write an explanation with accompanied labelled drawings to support your explanation.
During our PSHE lessons this term we will be learning about 'health and well-being'. How could you promote healthy eating in the school? Create a poster, menu or recipe book that you could give to children that would help them choose healthier food and drinks.	Do you consider yourself an inventor or designer? What could you invent/design that would make day-to-day life easier? Get your creativity flowing by inventing a new product. Can you draw what it would look like and write a set of instructions so that everybody will know how it works.
